

Innovative suction technology

Dust-free drilling, clean, hand-held diamond core drilling up to Ø 250 mm in ceilings, walls or floors

- Dust-free air when working
- No pollution of the environment
- Simply connect the vacuum cleaner suction hose. The suction cup sucks itself onto the surface.
- Suitable for all rotary hammers and diamond core drills

| Suction cups | ASG 12 | ASG 68 | ASG 117 | ASG 202 | ASG 250 |
|------------------------------|------------------|------------------|-------------------|-------------------|-------------------|
| Drilling range | up to dia. 12 mm | up to dia. 68 mm | up to dia. 117 mm | up to dia. 202 mm | up to dia. 250 mm |
| Dry drilling | ● | ● | | | |
| Wet diamond core drilling | | ● | ● | ● | ● |
| Connection dia. suction hose | 32-37 mm | 32-37 mm | 32-37 mm | 32-37 mm | 32-37 mm |
| Order number | ASG 12 | ASG 68 | ASG 117 | ASG 202 | ASG 250 |

Accessories

Industrial vacuum cleaner

for wet and dry suction, with intergrated appliance socket, automatic activation and fully automated filter cleaning

| | |
|------------------|----------------|
| Max. power input | 1400 watts |
| Max. volume flow | 61 l/s* |
| Max. vacuum | 248 mbar* |
| Container volume | 25 l |
| Weight | 12.7 kg |
| Suction hose | dia 35 mm, 5 m |
| Protection class | 1 |
| Order No. ISC | |

*measured on motor fan

Elbow fitting

for drilling in hollows and recesses with ASG 117, ASG 202 and ASG 250
Order No. WST

Sealing cover

for ASG 117
Order No. DM 117

for ASG 202
Order No. DM 202

for ASG 250
Order No. DM 250
